About Us

Pekos valves, has been designing and producing ball valves under Pekos® brand since 1988. A leading European company with more than 30 years of experience in manufacturing ball valves. The company has become a solid reference in the ball valve manufacturing and automation industry. More than 1.000.000 of valves manufactured and delivered to a wide range of industries such as Oil & Gas, Petrochemical, Chemical, Energy, Pulp & Paper, pharmaceutical and food industry.

Pekos Valves company philosophy

To bring to the market standard and special execution ball valves with short lead times, at competitive price and most importantly long service life. This is combined with dedicated sale and after-sale service by a truly international team.

Technology

Pekos factories are equipped with cutting edge technology and state of the art machinery where the Technical, R+D+i and Quality department are continuously improving and ensuring the highest level of quality. We perform in-house test such as hydrostatic tests using multiple testing benches, cryogenic and fire test.

Logistics

Our logistics, refined throughout all these years in the market, allows us to supply our products with short delivery times. The fully automatic warehouses in Barcelona and Bilbao reduce the preparation time of our customers' orders and guarantee their accuracy.

Stock

At www.pekos.es all our distributors can check, on-line, stock availability, more than 50.000 valves different materials and configurations more than 30 million € stock at your service.

Approvals, certificates and quality control

All Pekos valves are designed, produced and certified by the most widely accepted international standards. Our total quality control system is designed to assure that every step from material procurement through machining, assembly, testing and packaging meet our main goal - Always exceeding the expectations of our customers.

Pekos is supplying to more than 70 countries around the globe since 1988. This wide acceptance is testimony to the company's ability to understand and efficiently respond to the requirements of current global market. The regular growth of the Pekos Valves from the financial point of view, is the result of a stable increase in sales, qualified staff, range of product and qualified investments in hardware, software and R+D+i. Always following the industrial market development.
