Ball Valves

Making excellence
something personal

About Us

Pekos Ball Valves has been designing and producing ball valves under Pekos® brand since 1988. A leading European company with more than 30 years of experience in manufacturing ball valves. The company has become a solid reference in the ball valve manufacturing and automation industry. More than 1.000.000 of valves manufactured and delivered to a wide range of industries such as Oil & Gas, Petrochemical, Chemical, Energy, Pulp & Paper, Pharmaceutical and Food industry.

Pekos Valves company philosophy

Our mission is to deliver both standard and custom-designed ball valves with short lead times, competitive pricing, and, most importantly, exceptional durability. This commitment is supported by a dedicated sales and after-sales service team, offering personalized support from a truly international group of professionals.

Technology

Pekos factories are equipped with cutting-edge technology and State-of-the-art machinery, allowing our Technical, R&D, and Quality departments to continually enhance and maintain the highest quality standards. We conduct in-house testing, including hydrostatic tests using multiple testing benches, as well as cryogenic and fire tests, to ensure the reliability and performance of our valves.

Logistics

Our logistics, refined throughout all these years in the market, allows us to supply our products with short delivery times. The fully automatic warehouses in Barcelona and Bilbao reduce the preparation time of our customers' orders and guarantee their accuracy.

Stock

In our customer area, distributors can easily check real-time stock availability. With over 50.000 valves in various materials and configurations, and a stock value exceeding €30 million, we ensure prompt service and accessibility.

Approvals, certificates and quality control

All Pekos valves are designed, produced and certified by the most widely accepted international standards. Our total quality control system is designed to assure that every step from material procurement through machining, assembly, testing and packaging meet our main goal, always exceeding the expectations of our customers.

Pekos is supplying to more than 90 countries around the globe since 1988. This wide acceptance is testimony to the company's ability to understand and efficiently respond to the requirements of current global market. The regular growth of the Pekos Valves from the financial point of view, is the result of a stable increase in sales, qualified staff, range of product and qualified investments in hardware, software and R+D+i. Always following the industrial market development.
